## About me

MBA graduate, Ex-Credit Risk Data Analyst, Ex-Assistant Sustainability Practice, I am currently working as a Department Manager at Decathlon. I have found that nothing satisfies me more than evolving in a dynamic, intellectual, and challenging environment which places people and planet at the heart of all of its decision-making. I am a goal-oriented person and my passion for data science (R user [2+ years]) helps me to develop excellent decision-making tools and techniques based on tangible information.

### Some stuff about me

- I poisoned myself doing research.
- I was the first woman to win a Nobel prize
- I was the first person and only woman to win a Nobel prize in two different sciences.
